RUBRICS FOR INTERNAL MARKS

Review	Parameters	Sub-Parameters	Level of Achievement	Expectations	Review Assessment (Maximum Marks)	Rubrics	Marks Obtained
Review 1	Objectives of the work done (15)	Title of the Project (5)	The title of the project indicates clear, concise, and informative parts related to the project defining the subject and scope of the study. Use of words stimulate reader interest. Identify key variables, both dependent and independent co-relating relationship between variables which supports the major hypothesis.	Exceeds Expectations	4-5	Rubric 1	
			The title of the project is informative and self explanatory and descriptive. Words used create a positive impression.	Meets Expectations	2-3		
			The title of the project does not indicate clear, concise, and informative parts related to the project defining the subject and scope of the study. Use of incorrect grammar and Abbreviations. Use of exclamation sign is not recommended. No indication of Key variables of the study.	Below Expectation	1		
		Introduction of the Project (10)	The introduction of the project provides sufficient background information and give brief insights of the aim of the study. The introduction clearly states the hypothesis or purpose statement, how and why the purpose or hypothesis was developed. It defines the purpose of the work and its significance. It is be duly cited.	Exceeds Expectations	8-10		
			The introduction indicates extensive literature review and focus briefly on the aim of the project. The hypothesis presented does not the clear statements. The purpose and the significance were met.	Meets Expectations	5-7		
			The introduction of the project does not provides sufficient background information and the aim of study. The hypothesis or purpose statement remains unclear with vast literature reports not defining the actual significance of project. Statements not duly cited.	Below Expectation	2-4		
Review 1 Total Marks							
Review 2	Methodology adopted (20)	Materials/ Data Procurement (10)	In case of laboratory research related projects, Names of products and manufacturers (with city, state, and country is included. In case of data reviews the the proper data survey details along with cited literature reports are included.	Exceeds Expectations	8-10	Rubric 2	
			Detailed information regarding the material procurement and literature survey given with proper credits to organisation mentioned.	Meets Expectations	5-7		
			No information about the material procurement and literature are mentioned. No proper credits to the organisation given.	Below Expectation	2-4		
		Procedures and Methods (10)	The Methods section include information that was available at the time the study was planned or protocol written. New methods and protocols should be described in detail while well-established methods briefly described and appropriately cited. The name and version of any software used and make clear whether computer code used is available.	Exceeds Expectations	8-10		
			Complete information regarding the material and the analytical, statistical, and experimental procedures are described simply without categorical explanations.	Meets Expectations	5-7		
			No information about the protocols and procedures used in the project mentioned. the data given does not elicit the exact information of the methods used. Proper citations not mentioned.	Below Expectation	2-4		
Review 2 Total Marks							
Review 3	Results and Discussion (20)	Results (10)	Results are presented in a logical sequence in the text, tables, and illustrations, giving the main or most important findings first. Extra or supplementary materials and technical detail are placed but will not interrupt the flow of the text. When data are summarized in the Results section, numeric results not only as derivatives (for example, percentages) but also as the absolute derivatives are calculated, and specified the statistical methods used to analyze them.	Exceeds Expectations	8-10	Rubric 3	
			Results are presented in a logical sequence and some repeat in illustrations given. Data acquired from the research with the appropriate statistical analysis described in the methods section is included in this section. Tables and figures are to those needed to explain its support.	Meets Expectations	5-7		
			No importance to emphasis or summarization of important observations are given. There is extensive repetition of the numerals from tables into text and give lengthy and unnecessary explanations of the Tables and Figures.	Below Expectation	2-4		
		Discussion (10)	The discussion accurately interpret the results and to relate them to existing knowledge in the field in as clear and brief a fashion as possible. Every possible points explained briefly.	Exceeds Expectations	8-10		
			The discussion relates the results to the current understanding of the scientific problems being investigated in the field.	Meets Expectations	5-7		
			Information given elsewhere in the earlier part of document is repeated in the discussion. Extensive unnecessary reviews of the literature used.	Below Expectation	2-4		
	Conclusions and Outcomes (20)	Conclusion (10)	The conclusion of the project describe a clear summary of the main points of project along with ideas that may not have been directly stated but relevant to the project and enhancing the concept.	Exceeds Expectations	8-10		
			The conclusion of the project describe a clear summary of the main points of project with highlight on the obtained data of research or review.	Meets Expectations	5-7		
			The conclusion does not clearly explain the main findings of the work nor highlight its importance and relevance.	Below	2-4		
		Outcome (10)	Outcome represents the core findings of a study derived from the critical data analysis and result structure. Outcome also co-relates with the probable future reseach with the present approach.	Exceeds Expectations	8-10		
Outcome only represents the core findings of a study derived from the critical data analysis and result structure	Meets Expectations		5-7				
Outcome does not significantly impies to the analytical data or key findings of the project. Outcome not specified.	Below Expectation		2-4
