**COURSE OUTCOME**

- To attain a finer grasp of how gender discrimination works in our society and how to counter it.
- Understand the ideas of values, ethics, and morality in a multicultural context.
- Understand how universal values can be uncovered by different means, including scientific investigation, historical research, or public debate and deliberation (what some philosophers call a dialectic method)
- Understand and discuss the idea of moral relativism and the challenges it poses to universal values
- Critically assess the relationship between theory and practice in the formulation of values.
- Understand that values arise from lived experiences, but need to be justified to others.
- Understand the role of deliberation and debate in framing such values.
- Understand how to create an actionable document through such a process.
- Understand the importance of human solidarity and dignity
