 - a. The Impact of Social Media on Youth
 - b. Climate Change and Its Effects on Our Planet
34. Read the above passage carefully and provide the correct answers to the questions given below. **(CO5 HOT APPLY)**

Reading is widely recognized as one of the most important habits a person can cultivate. It not only enhances knowledge but also develops critical thinking, imagination, and language skills. Unlike passive forms of entertainment, such as watching television or scrolling through social media, reading requires active engagement, reflection, and comprehension. Books, journals, and credible online sources allow readers to explore diverse perspectives, understand complex issues, and connect ideas across disciplines.

In the modern digital age, people are increasingly exposed to fragmented information and short snippets, which can limit attention span and deep understanding. Therefore, cultivating a habit of reading deeply and critically is more essential than ever. Regular reading also improves vocabulary, writing skills, and the ability to articulate thoughts effectively. Beyond academic or professional benefits, reading fosters empathy and emotional intelligence by allowing individuals to experience the lives and perspectives of others.

Furthermore, reading contributes to lifelong learning and personal growth. It encourages curiosity, inspires creativity, and provides a sense of fulfillment. Those who read consistently are often better informed, more analytical, and capable of making thoughtful decisions. Parents and educators play a crucial role in instilling reading habits in children and adolescents, creating a foundation for intellectual and emotional development. Ultimately, reading is not merely a skill but a lifelong companion that enriches the mind and shapes a well-rounded individual. **(5*4=20)**

- a. According to the passage, what are three benefits of reading?
 - b. Who plays a crucial role in instilling reading habits in children?
 - c. Name two sources of reading material mentioned in the passage.
 - d. Why is deep and critical reading more important in the digital age?
 - e. Suggest an apt title for the passage according to you.
35. Read the above passage carefully and provide the correct answers to the questions given below. **(CO5 HOT APPLY)**

Artificial Intelligence (AI) has become an integral part of modern life, influencing diverse sectors such as healthcare, education, transportation, and business. By simulating human intelligence, AI systems can perform tasks like decision-making, problem-solving, and learning from data, often with greater speed and accuracy than humans. In healthcare, AI assists doctors in diagnosing diseases, analyzing medical images, and even predicting outbreaks. In education, AI-powered tools provide personalized learning experiences, adapting content to meet the unique needs of each student.

The business world has also benefited significantly from AI, with applications ranging from customer service chatbots to predictive analytics for marketing and supply chain management. Autonomous vehicles, powered by AI, are transforming transportation by enhancing safety and efficiency. Despite its numerous advantages, AI raises important ethical and social concerns, such as job displacement, privacy issues, and the potential misuse of technology. Experts argue that while AI can augment human capabilities, it cannot replace critical human judgment, creativity, and empathy.

To harness the benefits of AI while mitigating its risks, it is crucial for governments, organizations, and individuals to adopt responsible practices. This includes establishing ethical guidelines, promoting transparency, and investing in skill development to prepare the workforce for AI-driven changes. By balancing innovation with ethical responsibility, society can leverage AI to improve quality of life while safeguarding human values. **(5*4=20)**

- a. Name three sectors where AI is being used according to the passage.
 - b. List two benefits of AI in healthcare mentioned in the passage.
 - c. According to the passage, why is AI transforming transportation?
 - d. What are two ethical or social concerns related to AI?
 - e. Suggest an apt title for the passage according to you.
36. You have to deliver a presentation on 'Healthy Lifestyle Habits' in your class. Explain how you would apply effective presentation skills to make your session engaging and impactful. **(CO6 HOT APPLY]**
37. Imagine you are preparing a presentation for the class. Which specific presentation skills would you apply to make your session impactful? Justify your choices." **(CO6 HOT APPLY]**

UNIT VI

Section A (5 marks)

38. Explain why is correct pronunciation important in communication? Name two words that are wrongly pronounced the most. **(CO6 LOT UNDERSTAND)**
39. Explain the common pronunciation problems, we face while speaking English. **(CO6 LOT UNDERSTAND]**
40. Define ‘Interview’ as a process. **(CO6 LOT UNDERSTAND)**
